HÖRMANN

Hörmann Brand Quality
Safety and Reliability

We are Hörmann, a pioneer in high performance doors across the wold and No.1 door brand in Europe. Established in 1935, we adopt cutting-edge German technology to design, build and supply doors for Industrial, Commericial and Residential Applications.

We started our journey in India as Shakti Met-Dor(Now Shakti) in 1994 and have been operating as a Hormann subsidiary since 2012, we have developed a reputation for excellence in the Indian market with high quality products, prompt delivery, and a service paradigm that has become an industry benchmark.

We have a Pan-India presence with sales and marketing offices spread across all major metros, and our manufacturing facility near Hyderabad is equipped to produce over 200,000 hollow metal doors and frames and over 10,000 Industrial doors per annum. All our doors come with varied options in Ironmongery, sizes and finishes, Incorporating the latest global standards in safety and security.

Our vision is to Introduce products and services that enrich customer experiences in the Residential, Commercial and Industrial spaces, built on the foundation of Innovation, Quality and Customer Fulfilment.

Manufacturing Facility in Hyderabad

Our presence in the global economy's key regions makes us a strong, future-oriented partner for industrial and public construction projects.

In-house Product Development

Growing and constantly changing functional and safety requirements necessitate continuous new construction/equipment developments and improvements, especially when it comes to moveable construction components such as doors. In this area, our qualified development teams time and again prove their specialised expertise

Highly Sophisticated Production Methods

We at Hörmann rely on the latest production technology at our specialised factories. Computer controlled operations ensure dimensionally accurate elements with perfectly fitted fittings and functional parts.

Fire Testing at Accredited Labs

Our new and further developments are constantly tested for required fire resistance and smoke tightness through fire tests at CBRI - India, Warrington, UK and UKAS approved labs. We continually test and certify the glass and fire-rated steel frame profiles as per IS3614 Part 2 & BS476 Part 22 standards . The knowledge gained from these ensures high fire protection for life and property.

Expert Building Support

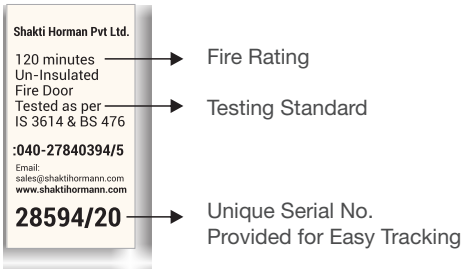

Experienced specialists within our customer oriented sales organisation accompany you from the planning stage, through technical clarification up to the final building inspection. Expert fitting is guaranteed by experienced Hormann fitters and the specialised trained staff of our reliable partners.

Indian Green Building Council
Greening India since 2001

Eco-Conscious

At Hörmann, we believe in playing our role in contributing towards a sustainable tomorrow. We support energy conservation, green revelation and eco-friendly products. More than 60% of the power requirement at our production facility is fulfilled by our own solar power unit. Our factory is under certification for Platinum rating by Indian Green Building Council.

Corporate Social Responsibility

Every time we achieve a little, we build a doorway to help others. The guiding principle is to improve the quality of the society and the environment that sustains us, and create a sustainable well-being.

As a socially responsible company, we contribute every year to build a better community, help the unprivileged and contribute for the greater good of the planet.
